

Elizabeth ‘Libby’ Stuyt, MD

Dr. Stuyt is a board-certified Addiction Psychiatrist and has worked in the addiction/behavioral health field since 1990. She was the Medical Director for the Circle Program, a 90-day inpatient treatment program, funded by the state of Colorado, for persons with co-occurring mental illness and substance abuse who have failed other levels of treatment from 1999 to 2020. She retired from this position in May 2020 in order to spend more time attempting to educate as many people as possible on the un-intended consequences she has seen from the commercialization of marijuana in Colorado, focusing primarily on the deleterious effects of high potency THC on the developing brain and mental health.
